The diagram illustrates a mapping from two source functions to a single target function. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'vvenc::xSetEdgeFilterInsidePu'. The bottom box contains the text 'vvenc::xSetMaxFilterLength' followed by 'PQFromTransformSizes' on a new line. On the right, there is a gray rectangular box with a black border containing the text 'setFilterEdge'. Two blue arrows point from the right side of the top white box and the right side of the bottom white box to the left side of the gray box.
