

activateAPS

```
graph LR; activateAPS[activateAPS] --> vvenc_msg[vvenc::msg];
```

A diagram showing a call from a function to a message. On the left, a gray rectangular box contains the text 'activateAPS'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'vvenc::msg'.

vvenc::msg
